EXECUTIVE SUMMARY - NOVEMBER 2021

ABOUT TOMBILL

- Founded and staked in 1935, by Tom Johnson and his brother Bill. We are a mineral exploration company, primarily gold, comprising 74 royalty-free claims (60 owned/patented), of which Tombill Main Group is 58 claims. We own two past-producing gold mines
- Based in Geraldton, Ont., and part of the Geraldton Gold Camp, adjacent to Hardrock Project and are surrounded by their parent Greenstone Gold Mines.
 Tombill Main Group is split in two by the Trans Canada Hwy
 - Our team comprises 3 senior geologists/executives who were instrumental in the success of the Hardrock campaign
- Until earlier this year, Tombill has had no exposure to modern day exploration since the 1950's. In January 2021, we embarked on a multi-million exploration
 plan comprising: drilling, near-surface drilling and surface work
- · Aim is to prove out westward plunge gold resource flowing from Hardrock, identify multiple zones, and pursue open pit opportunities
